

AntiEtch® Protected Countertop Care

Congratulations on Your AntiEtch® Protected Countertops!

Thank you for choosing Pellegrino Stonecare for your stone countertops.

Here are some tips for caring for anti-etch treated surfaces:

What to Avoid:

- Anti Etch is not chip, scratch, impact, or abrasion proof.
- Do not use acetone or solvents of any kind.
- Do not use aggressive scrubbers, bleach, vinegar, ammonia-based products, or anything acidic.
- Avoid Clorox wipes or similar products on the treated surface.

Daily Cleaning:

- Use a soft cloth or sponge with mild soap and water
- Dry the surface with a clean, soft cloth to prevent water spots.

Recommended Cleaning Products:

- Water-based and pH-neutral cleaners are ideal for AntiEtch®-treated surfaces.

Specific products recommended include:

- Granite Gold Daily Cleaner (use promo code "psc17" for 25% off purchases at www.granitegold.com.)
- DryTreat Rujevenata

Spill Management:

- Thanks to AntiEtch®, your countertops are now resistant to staining and etching
- Simply wipe up spills as they occur, even acidic substances like lemon juice, wine, or coffee.

Long-Term Care:

- No special maintenance required
- AntiEtch® provides 10 years of protection against staining and etching
- The surface is non-porous, preventing bacteria growth
- Use a coaster: Use a coaster to prevent embedded watermarks from cups and glasses.
- Use felt pads on items placed on treated countertops to protect surface.

Remember:

- AntiEtch® is food-safe and environmentally friendly. The crystal-clear finish preserves your stone's natural beauty
- Your countertops are backed by a 10-year warranty against staining and etching
- For any questions or concerns, please contact us.
- Enjoy your beautiful, protected countertops!
